

SCHOOL NURSING

0-19 SERVICE

School Nurse Service:

up to 19yrs of age in schools, Sixth form, college and CYP who are home schooled/not in education. School Nurses offer health assessments, interventions, anaphylaxis care plans, and attend EHA and safeguarding meetings.

Care Plans

Anaphylaxis: Currently School Nurses complete care plans for new year 7 pupils only. Existing care plans for other year groups can be used again, unless changes required (please liaise if required).

Currently, School Nurses are not routinely delivering any health education sessions (PSHE).

Library health promoting YouTube clips, scan QR code

Workshops: Continence workshops following online referral. Workshop, and charting prior to initial continence appointment.
