

29 January 2021

Dear Parent / Carer,

The following letter has been sent to all Sixth Form students today.

Dear Student,

Re: Mass testing of students returning to school – Y12/13 student letter

The announcement made by the Prime Minister on Wednesday of this week indicated that the government are targeting Monday, 8th March 2021 as the earliest date that students could return to schools in England. The government also announced that when students do return, they are fully committed to schools carrying out a mass asymptomatic testing programme of all returning students who have due consent to be tested.

When you do return to school, you will be entitled to receive two Lateral Flow Device (LFD) tests undertaken 3 to 5 days apart. You will be required to self-administer swabs from your tonsils and nostril which will be supervised by a fully trained member of the school staff or other trained adult. These swabs will then be tested for the presence of Covid-19. Results will be reported to the mobile number of the main parental contact held on record and any student with a positive result will be required to self-isolate with immediate effect. Any close contacts of a student who has tested positive for Covid-19 will also be asked to self-isolate for 10 days from the date of contact even if they themselves have received a negative test result. Currently the daily close contact testing programme has been put on hold by the government.

For you to be tested, you need to provide consent for yourself. It is advisable that you discuss this with your parents / carers and I will be sending them a copy of this letter for information. We will be seeking your consent using the AIM platform. From Monday 1st February, when logging into the AIM homepage, you will be presented with a consent form for testing and will need to select either, 'I consent' or 'I do not consent' before the home page can be accessed. If the consent form does not appear, please try logging out and back in again. We ask that you complete this form by the end of this term – Friday, February 12th 2021. Details of the terms of consent can be found below and a link to the privacy notice can be found [here](#). The privacy notice contains details of all the personal data that will be collected as part of the process.

Although participation in this mass testing programme will help to reduce the risk of virus transmission within NSB, you do have the right to not provide consent for your participation in this testing programme and if this is the case you will still be entitled to attend school. Consent can also be withdrawn at any time prior to the testing taking place.

Please note that if you have previously tested positive for COVID-19, the current guidance is that you can still participate in the testing programme and are encouraged to do so. Please note that this is a change from the initial guidance issued by the government which suggested you should not take another test within 90 days of a positive PCR test result.

When we are provided with more information about the full re-opening of the school, we will write to you and your parents / carers with specific details of how we will carry out the mass testing, however, by providing consent now, we are able to determine the overall numbers who will be part of the testing programme.

If you have any questions relating to the testing, then please email the school's main reception on nsb_reception@nsb.northants.sch.uk

Finally, I would like to remind you that if you experience any Covid-19 symptoms, then [government guidelines to self-isolate](#) must be followed, even if you have had a recent negative lateral flow test. You should also then book in to receive a full PCR test.

Yours sincerely

M J Edwards
Senior Deputy Headmaster

Terms of consent

1. I have had the opportunity to consider the information provided by the school about the testing, ask questions and have had these answered satisfactorily, based on the information presented in the letter dated 29th January 2021 and the attached Privacy Notice. I have discussed this with my parents.
2. I am happy to participate in the testing. If on the day of testing I do not wish to take part, then I understand I will not be made to do so and my consent can be withdrawn at any time ahead of the test.
3. I consent to having a nose and throat swab for lateral flow tests. I will self-swab if I am able to, otherwise I understand that assistance is available.
4. I understand that there may be multiple tests required and this consent covers all tests for me.
5. I consent that my sample(s) will be tested for the presence of COVID-19.
6. I understand that if my result(s) are negative on the lateral flow test I will not be contacted by the school except where I am a close contact of a confirmed positive case. A text will be sent to the mobile number of the main contact the school has on record for me, confirming the outcome of the test.
7. If the lateral flow test indicates the presence of COVID-19, I commit to leaving the school premises as promptly as possible and immediately going home, bearing in mind I may have some anxiety following a positive test result.
8. I consent that I will need to self-isolate following a positive lateral flow test result for 10 days from the date of the positive test result.
9. I consent that if a close contact of mine tests positive then I will also need to self-isolate for 10 days from the last date of contact I had with that person.
