Physical Education	Psychology	Religious Education	Physics	Photography
Politics	Sociology	Sociology	Psychology	Physical Education
Product Design (Design Technology)			Spanish	Physics
Psychology				Politics
				Sociology
BTEC	BTEC	BTEC	BTEC	BTEC

Further Mathematics:

- Please note that Further Mathematics takes up Option Blocks 1 and 4.
- If you wish to study Further Mathematics you must still choose two other subjects from the remaining Option Blocks (i.e. Blocks 2, 3 or 5).
- If you wish to study Further Mathematics you do not need to select Mathematics as a separate subject too.

BTEC

- Please note that this course is the equivalent of THREE full A Level subjects and goes over all 5 option blocks. You cannot take any A Levels when studying the BTEC course. As part of the application process at the point of application ALL students wishing to apply for the BTEC course MUST upload to their application evidence (a formal offer letter or license number) clearing showing you meet the minimum of the performance level thresholds outlined in the entry requirements.

Core Mathematics:

- Please note that this subject is NOT a full A Level and does not appear on the option block information above. It is studied on top of your three A Level choices. If you are interested in studying Core Mathematics, you will have the opportunity to indicate this on your application form. Unfortunately, we cannot guarantee this will run as it is dependent on uptake and availability of students.

The school expects that students will follow a course which consists of three full A Levels/BTEC course for two years. There is the opportunity for exceptional applicants to study a fourth subject and if you would like to be considered for this offer please message us in the talk to us section of your application. To study four distinct subjects, you will need to achieve a minimum of grade 7 in all your GCSE subjects. This does NOT apply to Further Mathematics applications.
