For any further advice on valid combinations please contact OCR using [religiousstudies@ocr.org.uk](mailto:religiousstudies@ocr.org.uk).

## 2c. Content of religious Beliefs and teachings & Practices (J625/01-05)

### Introduction to Component Group 1

2

In this component, learners have the opportunity to study key concepts within their two chosen religions in order to develop knowledge and understanding of the basis of the religions' beliefs, teachings and practices.

As part of the study, learners will recognise and consider the existence and importance of common and divergent views within their chosen religions' traditions, in the way beliefs, teachings and practices are understood and expressed.

They will acquire knowledge and understanding of sources of authority and wisdom that underpin and connect teachings, beliefs and practices and be able to refer to them in responses. Learners will explore how their chosen religions influence individuals, communities and societies.

Learners will also have the opportunity to develop their ability to explain, analyse and evaluate topics, in order to offer reasoned and supported arguments in discussions about key issues within your chosen religions.

The spelling of words which have been transliterated from non-Roman alphabets will be used consistently through the assessment materials. Learners will not be penalised for the use of other common spellings.

For Buddhism and Hinduism, learners should be aware that suggested sources of wisdom and authority are examples of references to core Buddhist/Hindu concepts made within Buddhist/Hindu writings. Modern understandings of these concepts are constructed from multiple sources and tradition, rather than being based on a single text.

#### Beliefs and teachings

##### Learners should be able to:

- demonstrate knowledge and understanding of the area of study and its importance for their chosen religions' belief, teaching and practice
- analyse, evaluate and discuss the issues raised by the area of study and their importance for individuals, communities and societies in your chosen religions
- include any relevant sources of wisdom and authority, including scripture and/or sacred texts where appropriate
- consider significant common and divergent views within your chosen religions.

#### Practices

##### Learners should be able to:

- demonstrate knowledge and understanding of your chosen religions' practices and their importance for individuals, communities and societies
- analyse, evaluate and discuss the issues surrounding your chosen religions' practices
- reference any relevant sources of wisdom and authority, including scripture and/or sacred texts where appropriate
- consider significant common and divergent views about your chosen religions' practices

## 2c. Content of Religion, philosophy and ethics in the modern world from a religious perspective (J625/06–10)

### Introduction to Component Group 2

In these components learners will approach the study of religion, philosophy and ethics in the modern world through a study of **four** key themes.

Learners will follow a study of philosophical and ethical arguments and their impact and influence in the modern world.

Learners will be able to demonstrate the depth of their understanding of religion through the application of teachings from religions, beliefs and through references to any sources of wisdom and authority. These may include scripture and/or sacred texts.

Learners are required to follow this thematic approach through **one** of the religions they have chosen to study from Component Group 1.

Learners are required to consider the themes from different perspectives within the religion.

The spelling of words which have been transliterated from non-Roman alphabets will be used consistently through the assessment materials. Learners will not be penalised for the use of other common spellings.

For Buddhism and Hinduism, learners should be aware that suggested sources of wisdom and authority are examples of references to core Buddhist/Hindu concepts made within Buddhist/Hindu writings. Modern understandings of these concepts are constructed from multiple sources and tradition, rather than being based on a single text.

#### Learners should be able to:

- demonstrate knowledge and understanding of different philosophical and ethical arguments relating to the areas of study
- analyse, evaluate and discuss the issues raised by the areas of study for their chosen religion and individuals, communities and societies
- demonstrate the depth of their understanding of their chosen religion by referring to teachings, beliefs, views, attitudes and values, supported by reference to relevant sources of wisdom and authority, including scripture and/or sacred texts where appropriate consider significant common and divergent views within their chosen religion
- refer, where appropriate, to different philosophical, ethical or religious perspectives in support of explanations or arguments
- consider the issues raised for their chosen religion in Great Britain. Know and understand that the religious traditions of Great Britain are, in the main Christian **but** they are also diverse and include other religious and non-religious beliefs.

## Religion, philosophy and ethics in the modern world from a Christian perspective (J625/06)

Learners will need to be familiar with the expectations laid out on page 45 of the specification.

## 2d. Prior knowledge, learning and progression

---

Learners in England who are beginning a GCSE (9–1) course are likely to have followed a course of study based on their local area requirements.

No prior knowledge or qualification in the subject is required. The specification builds on, but does not depend on, the knowledge, understanding and skills acquired at Key Stage 3.

OCR's GCSE (9–1) in Religious Studies provides a suitable foundation for the study of Religious Studies or related courses in further education. Skills gained from the qualification would help to equip learners for further studies in the range of Humanities, Arts or

Social Sciences subjects, such as A Level History, English, or Psychology for example. OCR's GCSE (9–1) in Religious Studies provides a suitable foundation for the study of Religious Studies at AS level and A level.

Equally it is suitable for preparing learners for the world around them. The specification is designed to develop critical and reflective thinking with respect to religious diversity and encourage an awareness of the importance of religious beliefs, teachings and practices. OCR's Religious Studies GCSE (9–1) is an excellent qualification to preparing learners for employment and giving learners personal growth and engagement in learning.

## 3 Assessment of GCSE (9–1) in Religious Studies

### 3a. Forms of assessment

---

#### Component Group 1 (Components 01–05) Religious Beliefs and teachings & Practices

---

Learners will undertake two externally assessed components. Question paper structure will be identical across the components. Each question paper will be 1 hour in duration. Each assessment will address both Assessment Objectives, with an overall weighting of AO1 60% AO2 40%.

Learners will answer **two** compulsory questions for each component, each question being divided into five parts. The first three part questions are short

answer responses with low mark tariffs. The fourth part question is a medium length response targeting AO1. The fifth part question is an extended response question, targeting both AO1 and AO2, weighted towards AO2.

Spelling, Punctuation and Grammar, will be assessed in the first extended response part question. The overall mark total for each component is 63.

## Component Group 2 (Components 06–10) Religion, philosophy and ethics in the modern world from a religious perspective

Learners will undertake one externally assessed component, from one of the two religions chosen in Component Group 1. Question paper structure will be identical across these components. The question paper will be 2 hours in duration. Each assessment will address both Assessment Objectives, with an overall weighting of AO1 40% AO2 60%.

Learners will answer **four** compulsory questions; each question addresses one of the four themes from the subject content. Each question is divided into four parts.

The first part question is a short answer question with a low mark tariff. The second part question is a medium length response targeting AO1. The third part question is a medium length response targeting AO2. The fourth part question is an extended response question, targeting both AO1 and AO2, weighted towards AO2.

Spelling, Punctuation and Grammar will be assessed in the first two extended response part questions. The overall mark total for each Component is 126.

### Command words

Within all components the following command words will be used:

### 3c. Assessment availability

There will be one examination series available each year in May/June to **all** learners.

This specification will be certificated from the June 2018 examination series onwards.

All examined components must be taken in the same examination series at the end of the course.

### 3d. Retaking the qualification

---

Learners can retake the qualification as many times as they wish.

They retake all components of the qualification.

### 3e. Assessment of extended response

---

The assessment materials for this qualification provide learners with the opportunity to demonstrate their ability to construct and develop a sustained

and coherent line of reasoning and marks for extended responses are integrated into the marking criteria.

### 3f. Spelling, punctuation and grammar (SPaG) and the use of specialist terminology

---

In the specification as a whole, 5 percent of the marks will be used to credit the accuracy of the learners' spelling, punctuation and grammar and their use of specialist terminology (SPaG).

SPaG is assessed will be extended responses and will be clearly indicated on assessment materials.

There will be 3 marks available for SPaG within components 01 to 06 and 6 marks available for SPaG in components 07 to 12. The tasks in which

The marking expectations for spelling, punctuation and grammar and the use of specialist terminology (SPaG) can be found at the back of the mark schemes for the assessment materials.

### 3g. Synoptic assessment

---

- Synoptic assessment is the learners understanding of the connections between different elements of the subject. It involves the explicit drawing together of knowledge, skills and understanding within different parts of the GCSE (9–1) course.
- The specification offers opportunities for learners to understand the organic connections

within a religion between beliefs, teaching and practice and the issues addressed in the philosophical themes.

- The emphasis of synoptic assessment is to encourage the understanding of Religious Studies as a discipline and enables learners to explore the significance of religion for individuals, communities and societies.

### 3h. Calculating qualification results

---

A learner's overall qualification grade for OCR GCSE (9–1) in Religious Studies will be calculated by adding together their marks from Component Group 1 and Component Group 2 to give their total weighted mark. This mark will then be compared to the

qualification level grade boundaries for the entry option taken by the learner and for the relevant exam series to determine the learner's overall qualification grade.

## 4 Admin: what you need to know

The information in this section is designed to give an overview of the processes involved in administering this qualification so that you can speak to your exams officer. All of the following processes require you to submit something to OCR by a specific deadline.

More information about the processes and deadlines involved at each stage of the assessment cycle can be found in the Administration area of the OCR website.

OCR's *Admin overview* is available on the OCR website at [www.ocr.org.uk/administration](http://www.ocr.org.uk/administration)

### 4a. Pre-assessment

---

#### Estimated entries

---

Estimated entries are your best projection of the number of learners who will be entered for a qualification in a particular series. Estimated entries

should be submitted to OCR by the specified deadline. They are free and do not commit your centre in any way.

#### Final entries

---

Final entries provide OCR with detailed data for each learner, showing each assessment to be taken. It is essential that you use the correct entry code, considering the relevant entry rules.

All learners taking a GCSE (9–1) in Religious Studies must be entered for one of the following entry options:

## 4b. Special consideration

---

Special consideration is a post-assessment adjustment to marks or grades to reflect temporary injury, illness or other indisposition at the time the assessment was taken.

Detailed information about eligibility for special consideration can be found in the JCQ publication *A guide to the special consideration process*.

## 4c. External assessment arrangements

---

Regulations governing examination arrangements are contained in the JCQ *Instructions for conducting examinations*.

### 4 Head of centre annual declaration

---

The Head of Centre is required to provide a declaration to the JCQ as part of the annual NCN update, conducted in the autumn term, to confirm that all candidates at the centre have had the opportunity to undertake the prescribed course activities.

Any failure by a centre to provide the Head of Centre Annual Declaration will result in your centre status being suspended and could lead to the withdrawal of our approval for you to operate as a centre.

## Private candidates

---

Private candidates may enter for OCR assessments.

A private candidate is someone who pursues a course of study independently but takes an examination or assessment at an approved examination centre. A private candidate may be a part-time student, someone taking a distance learning course, or someone being tutored privately. They must be based in the UK.

Private candidates need to contact OCR approved centres to establish whether they are prepared to host them as a private candidate. The centre may charge for this facility and OCR recommends that the arrangement is made early in the course.

Further guidance for private candidates may be found on the OCR website: <http://www.ocr.org.uk>

## 4d. Results and certificates

### Grade Scale

GCSE (9–1) qualifications are graded on the scale: 9–1, where 9 is the highest. Learners who fail to reach the minimum standard of 1 will be Unclassified (U).

Only subjects in which grades 9 to 1 are attained will be recorded on certificates.

### Results

Results are released to centres and learners for information and to allow any queries to be resolved before certificates are issued.

Centres will have access to the following results' information for each learner:

- the grade for the qualification
- the raw mark for each component
- the total weighted mark for the qualification.

The following supporting information will be available:

- raw mark grade boundaries for each component
- weighted mark grade boundaries for each entry option.

Until certificates are issued, results are deemed to be provisional and may be subject to amendment.

A learner's final results will be recorded on an OCR certificate. The qualification title will be shown on the certificate as 'OCR Level 1/Level 2 GCSE (9–1) in Religious Studies'.

## 4e. Post-results services

A number of post-results services are available:

- **Review of results** – If you are not happy with the outcome of a learner's results, centres may request a review of their marking.
- **Missing and incomplete results** – This service should be used if an individual subject result for a learner is missing, or the learner has been omitted entirely from the results supplied.
- **Access to scripts** – Centres can request access to marked scripts.

## 4f. Malpractice

Any breach of the regulations for the conduct of examinations and non-exam assessment may constitute malpractice (which includes maladministration) and must be reported to OCR as

soon as it is detected. Detailed information on malpractice can be found in the JCQ publication *Suspected Malpractice in Examinations and Assessments: Policies and Procedures*.

## 5c. Accessibility

---

Reasonable adjustments and access arrangements allow learners with special educational needs, disabilities or temporary injuries to access the assessment and show what they know and can do, without changing the demands of the assessment. Applications for these should be made before the examination series. Detailed information about eligibility for access arrangements can be found in the JCQ *Access Arrangements and Reasonable Adjustments*.

The GCSE (9–1) qualification and subject criteria have been reviewed in order to identify any feature which could disadvantage learners who share a protected Characteristic as defined by the Equality Act 2010. All reasonable steps have been taken to minimise any such disadvantage.
